## About Food Innopolis

### Food Innopolis at Thailand Science Park, by Ministry of Science and Technology (MOST)

- is one-of-a-kind research, development and innovation (RDI) hub for food industry in 'Amazing Food Culture' with PROFESSIONAL, PLATFORM & PARTNERSHIP.
- We are government initiatives with privileges and state-of-the-art facilities with integrative food scientists and technologists to create innovative value chain for food manufactures in all scales from local to global.
- We are your RDI partner with not only platforms to drive business growth but also to strengthen the entire food industry for consumer and society benefits.
